Council Corner

I was on vacation over the 4th of July, 120 miles away from Lincoln. I was sitting with a group of people from around the state, when someone asked where I lived. I responded “Lincoln.” That is when someone in the group spoke up and said, “I know that place.” They said they specifically knew of the police department and stated, “That is the place where the officers take time for the kids. They will stop to let the children push buttons in the police cars.” They went on to say their kids had a wonderful time interacting with the officers and learning about what they do. This was a proud moment for me to know our city is gaining recognition from others across the state as having a “wonderful” police department. Every day, our public safety personnel respond to a variety of calls for service often times putting them in harm’s way. For the Lincoln Police Department, this can put them in a position to see people and the community at their worst. Despite this, they come to work again and again because they have an underlying need to protect and serve. The same can be said about our rural fire department and others. So, I wanted to take this opportunity to thank the courageous and caring police officers, firefighters, EMTs, and dispatchers for what they do to make the city of Lincoln a safer place for us to live and raise our families. We are lucky to have such an excellent group of public safety personnel.
